

**HALDANE CENTRAL SCHOOL DISTRICT
PHASE 11 STORMWATER MANAGEMENT
CONTINUANCE OF PERMIT COVERAGE FOR COVERED ENTITIES**

I - PERMIT COVERAGE AND LIMITATIONS

Pursuant to Section 402 of the Clean Water Act (“CWA”), and in accordance with the New York State Environmental Conservation Law (ECL), School Districts are authorized to discharge stormwater provided:

- ❖ **SPDES General Permit:** They obtain coverage under SPDES General Permit for Stormwater Discharges GP-0-10-002
- ❖ **SWMP:** They develop and implement a stormwater management program (SWMP)

II - CONTINUANCE OF PERMIT COVERAGE

The current permit, under Permit No. GP-0-10-002 (expired on April 30, 2017), is extended until the new permit is issued.

- ❖ **CONTINUANCE OF PERMIT COVERAGE** Current entities, with coverage under Permit No. GP-0-10-002, will continue to have authorization to discharge stormwater, until the new permit is issued
- ❖ **Public Hearings and Comments:** The new permit is currently undergoing public hearings and comments

III - CONTINUANCE OF THE IMPLEMENTATION OF MCMs

Current entities should continue to implement the program by;

- ❖ **MCMs:** Complying with the Six (6) Minimum Control Measures (MCMs)
- ❖ **Annual Report:** Submitting the Annual Report (Part V.C.)
- ❖ **SPDES General Permit:** Indicating in the Municipal Compliance Certification (MCC) Form (Part V.D.) that the program was completed in accordance the SPDES General Permit.

IV - SIX (6) MINIMUM CONTROL MEASURES (MCMS)

To comply with the requirements of the SPDES General permit, School Districts must develop a Stormwater Management Plan (SWMP) that includes the following Minimum Control Measures (MCMs):

1. Public Education and Outreach on Stormwater Impacts
2. Public Involvement/Participation
3. Illicit Discharge Detection and Elimination (IDDE)
4. Construction Site Stormwater Runoff Control
5. Post-Construction Stormwater Management
6. Pollution Prevention/Good Housekeeping for District Operations

V – IMPLEMENTATION OF SIX (6) MCMs

Each MCM mentioned above will be implemented as follows:

- ❖ **MCM1: Public Education and Outreach:** CFE will develop newsletter and fact sheets, which will be posted on the District's Stormwater Website for the District Community to review and access, as needed
- ❖ **MCM2: Public Involvement/Participation:** CFE or the School District will provide presentation to students and staff on the current and ongoing SWMP
- ❖ **MCM3: Illicit Discharge Detection and Elimination (IDDE):**
 - **Outfall Reconnaissance Inventory:** CFE will conduct an Outfall Reconnaissance Inventory
 - **District Operations:** CFE will conduct a District Operations Survey to determine potential non-stormwater discharges
 - **Summary Report:** CFE will provide a Summary Report of the District's Outfall Conditions and the District's Operations, recommending any corrective actions that the District should undertake, if warranted
- ❖ **MCM4: Construction Site Stormwater Runoff Control:**
 - **Erosion and Sediment Controls for Under One (1) Acre:** The District shall implement provisions for erosion and sediment

controls for all land disturbances undertaken by the District, of under one (1) acre, if applicable

- **Construction Permit for One (1) and Greater Than One (1) Acre of Land:** The District shall require their consultants to comply with the Construction Activity Permit GP-0-15-002 for:
 - 1) **NOI:** the preparation and filing of a Notice of Intent (NOI)
 - 2) **SWPPP:** the preparation of a Stormwater Pollution Prevention Plan (SWPPP)
 - 3) **Construction Inspections:** the conducting inspections during the construction and
 - 4) **NOT:** the filing a Notice of Termination (NOT), after the construction is completed

❖ **MCM5: Post-Construction Stormwater Management:** The District shall include maintenance requirements of all post-construction stormwater control structures such as detention basins, etc.

❖ **MCM6: Pollution Prevention/Good Housekeeping for District Operations:** CFE will develop Guidance and Procedures Documents, as warranted, that will address:

- **Sources of Non-Stormwater Discharges:** CFE will identify potential non-stormwater pollution sources in the District
- **Reduction of Pollutants of Concern (POCs):** CFE will identify District Operations which may contribute POCs
- **O & M Staff Training Workshop:** CFE and/or the District will conduct an O & M Staff Training Workshop on POCs

VI – DRAFT AND FINAL ANNUAL REPORT

As a final component of the six (6) MCMs, CFE will develop a Draft Annual Report (for public review and comments) and submit a Final Annual Report to NYSDEC by June 1, 2017
